Research & Education Foundation Sligo University Hospital

Vision

The Research & Education Foundation is dedicated to the improvement of health and healthcare delivery by promoting the development of a culture of research and education at Sligo University Hospital and in its region. The Foundation considers the improvement of patient care to be at the core of its activities.

Mission

The Research & Education Foundation is working to increase healthcare research and education activity in the Sligo region. To this end, we work both to develop the capacity of staff to undertake research, support the funding of research, develop research partnerships and raise awareness and understanding of healthcare research as well as working to promote education on health and healthcare matters
